## RiteMade Paper Converters Named as one of the Nation’s Top Diversity Businesses

Kansas City, Kansas 2009. In recognition of the economic power of privately held businesses, DiversityBusiness.com, the nation’s leading business-to-business internet site, recently named **RiteMade Paper Converters, Inc.** as one of the top businesses in the United States.

This is the 9th annual listing of the nation’s top businesses by DiversityBusiness.com. The companies listed on the Top Business Lists represent the **Nation’s Top Multicultural Earners** and challenge the long-held notion that a privately held business is small or insignificant. Winners are sought after by major corporations wishing to increase spending with small businesses.

“Entrepreneurs are a growing force in the U.S. economy, and a force to be reckoned with,” said Kenton Clarke, CEO of Computer Consulting Associates International, the company that built DiversityBusiness.com. This is a whole business segment that can carry its own, that provides jobs, products and services, and generates wealth for their communities. These are the new leaders in American business.”

*“All the Employee owners at RiteMade Paper Converters Inc. are proud to be recognized for their hard work and dedication,” said Steve Schwartz, CEO of RiteMade.*

The winning companies will be honored at a special awards ceremony at DiversityBusiness.com’s “9th Annual Multicultural Business Conference”, taking place April 29 – May 1, 2009 at the Disney’s Contemporary Resort in Orlando, Florida.

### About RiteMade Paper Converters Inc.

Established in 1952, RiteMade Paper Converters, the industry’s only 100% employee owned company, continues to be the fastest growing producer of receipt paper rolls in the business. Our three manufacturing plants, (CA, KS, VA), are geographically positioned to serve the needs of our customers nationwide. We produce plain, printed and loss prevention enhanced thermal, two-sided thermal, carbonless and 40% post-consumer waste bond paper rolls and are the industry leader in developing and utilizing environmentally sustainable processes.
